

MagnaTek™

Digital Print Sleeve

All New Print Sleeve Specifically Designed for Digital Applications

Mid American Rubber has extended our range of print sleeves to include the new MagnaTek™ line.

- The specially formulated compound is suitable for use with UV, oil and water-based inks and coatings
- Proprietary lower-durometer compound provides superior transfer and uniformity of coating for digital applications
- Precision-designed in various diameters and lengths
- Designed to work with Mid American Rubber's Digital Print Sleeve System
